Mission: The purpose of Women in Healthcare is to promote the professional development of women in the healthcare industry through networking, education, and mentorship. Through this community we empower one another, support growth and mentorship, provide education and support business through sharing successful techniques, leads, contacts, products and services.

We are committed to providing women in the healthcare industry with the community and tools needed to prosper and to allow them to have a seat at the table they want to be seated.

Who we serve: Women in healthcare gears their content towards women who are interested in a management or leadership track within the healthcare environment. We are diverse mix of individuals varying in experience from students to c-suite.

Values: Women in Healthcare provides programming needed to grow personally, in your career and in the healthcare community. We focus all the content we provide on the following tracks:

- // Mentorship
- // Education
- // Networking
- // Community
- // Self
